SUPREME HIBACHI GRILL

Supreme Hibachi Grill is one of the largest privately-owned Japanese Hibachi / Chinese / American Buffet restaurant operations in the US.

This family owned, managed and operated firm has over 25 restaurants in the US. From architects, lawyers, and construction crews, Supreme Hibachi Grill has a select group preferred vendors in which it utilizes from leasing to construction build-out. This is one of the ways it maintains the distinctive look and feel of its restaurants. So you know that you are dining in one of our restaurants.

High quality, value and cleanliness are the overarching values of the company. Each of its restaurants are under the constant management of the restaurant's founding family members and executive associates who take great pride in providing excellent value to its customers.

We have received numerous accolades from our landlords as a great tenant for the shopping centers that we are located in. We work to maintain our restaurant's appearance and continually remain a large draw for any retail center.
